

CATARH CURED BY DRY AIR.

Hyomel Medicates the Air You Breathe,
Kills the Germs and Cures
the Disease.

Hyomel cures catarrh thoroughly and permanently, because it reaches the smallest air cells in the head, throat and lungs, kills the germs causing the disease and drives it from the system. Hyomel goes to the root of the disease, destroys the cause, and makes permanent cures which can be effected in no other way. Breathe it for a few minutes four times a day and benefit will be seen at once. Continue this treatment for a few weeks and Hyomel will have cured you.

The Hyomel in the inhaler furnished with the outfit dries and sterilizes the air you breathe. It is a local and direct treatment for eradicating all catarrh germs in the mucous membrane and tissues and in this way cures catarrh in any part of the system. Used in connection with Hyomel Balm it has been successful in curing the worst and most deep-seated cases of catarrhal deafness.

A. W. Clark of Everett, Mass., writes: "I have spent a fortune on different treatments for catarrh and could not hear across the table. After using Hyomel and Hyomel Balm for eight days I can hear as well as ever."

Stronger than any claims that can be made in an advertisement is the fact that the Red Cross Pharmacy will give their personal guarantee with every Hyomel outfit; they sell to refund the money if the purchaser can say that Hyomel has not given satisfaction.

COMMISSIONERS RETURN.

Admiral Walker Satisfied With Big Canal's Progress.

New York, May 9.—Rear Admiral J. G. Walker, General P. C. Hains and Professor William H. Burr, the subcommittee of the Panama canal commission, have arrived on the steamer Alliance from Colon. The committee went over the line of the canal and inspected the work.

The commission has been absent one month. Rear Admiral Walker said of the trip:

"We went to the isthmus on a tour of inspection only. We looked over the ground thoroughly, examined the work already done and the plans of the work to be done. Everything seemed to be progressing nicely."

"What we saw will be embodied in a report to the authorities in Washington, and we are prevented from saying much now."

"We did not come in contact with anybody who has anything to do with the treaty, therefore I am in no position to say if everything is likely to be amicably arranged between the United States and the Colombian government concerning the territory through which the canal will pass."

BULGARIAN PLOTS.

Details of Frustrated Attempt to Cause Explosion at Monastir.

Constantinople, May 9.—The attempt made by a band of Bulgarians to blow up a powder magazine at Monastir caused a panic in that town. The shops and bazaars were instantly closed. It is believed the attack was made with the view of provoking reprisals.

The military authorities, however, cordoned the Mohammedan quarter and prevented the Mussulmans from getting out. All the consulates were furnished with guards. The attacking party, which was surprised by Turkish troops, ultimately fled after a number of men had been killed or wounded.

French War Ships Off For Salonika.

Toulon, May 9.—Following the receipt by Admiral Pottier of cipher orders, the French flagship Admiral Potemau and the armored cruiser Latouche-Treville have sailed for Salonika. The cruiser Gallie is ready to proceed to the same port.

The Kent Trial.

Rochester, N. Y., May 9.—The Kent case drags heavily. Dr. John H. Achenson took the stand and testified to treating Miss Dingle at St. Mary's hospital at the request of Kent. The court would not allow him to reveal at present what the dead girl told him on the third day of her stay in the hospital. He will be called later. George Raines, the defendant's lawyer, took the stand and examined himself in regard to the trunk containing much important evidence which his representative procured in Buffalo. The torn pieces of three letters were found in a dresser drawer at the same time. These have been placed together and will be read later.

C. W. Kohlman Knighted.

Stockholm, Sweden, May 9.—King Oscar has conferred knighthood of the Royal Order of Vasa on Commissioner C. W. Kohlman in recognition of his work in connection with the St. Louis exposition. Accompanying the decoration was a letter from Foreign Minister Lagerheim congratulating Mr. Kohlman on the well deserved mark of his majesty's appreciation of his services.

Another Hay Wedding.

Springfield, Ill., May 9.—Invitations have been issued for the wedding of Lieutenant Charles Edward Hay, Jr., Twenty-fourth Infantry, U. S. A., and Miss Sarah Jane Roby of Decatur in St. John's Episcopal church, Decatur, Thursday evening, May 21. Lieutenant Hay is a son of former Mayor Charles E. Hay of this city and a nephew of Secretary of State Hay.

College Presidents Confer.

Chicago, May 9.—College presidents from all parts of the country are in attendance at the conference called by Northwestern university to discuss the subject of the relationship of the college to the professional school.

CONDITION OF TRADE

Disturbed by Unrest In the Ranks of Organized Labor.

SMALL STRIKES NUMEROUS

No Single Struggle of Great Magnitude, but in the Aggregate a Large Force is Idle—Structural Work Suffers Especially.

New York, May 9.—R. G. Dun's weekly review of trade says: Unrest in the ranks of labor has increased rather than abated since May 1, when difficulties of this sort usually culminate. No single struggle of great magnitude is in progress, but the frequency of small strikes is disturbing, and in the aggregate a large force is idle, while important industrial undertakings are checked. This is notably the case as to structural work, of which a large amount has been contemplated. Good reports are received from footwear factories, shipments from Boston for the year thus far surpassing all records, and clothing makers receive duplications of spring orders in addition to getting out fall samples.

At Baltimore there is great activity in the manufacture of straw hats and negligee shirts, while paper mills at Philadelphia find conditions satisfactory. Weather reports are irregular, stimulating retail trade at some points, but more often retarding the distribution of merchandise. Prices of commodities declined slightly during April. Dun's index number falling from 99.27 to 98.561. A year ago the highest point of recent years was touched at 102.289. Railway earnings were 13.4 per cent larger than in last year and 28.7 per cent above 1901.

Cotton Crop Late.

Cotton attracts most attention in the markets for the great staples. Dispatches from correspondents of R. G. Dun & Co. throughout the south report the crop late and injury has been done in many states, although the large acreage will probably make up much of the loss.

Grain has not maintained last week's position, no definite reports of injury being received, although farm work has been retarded by unfavorable weather. Unsatisfactory conditions at flour mills contributed to the easier tone of wheat. Western receipts for the week were 2,134,087 bushels, against 1,781,654 bushels a year ago, while exports from all ports of the United States, flour included, were 3,096,795 bushels, compared with 3,477,378 bushels last year. Corn arrivals amounted to 2,533,525 bushels, against 2,205,330 in 1902, and exports from the Atlantic coast were 1,793,373 bushels, against 69,533.

Failures this week numbered 175 in the United States against 218 last year, and 22 in Canada compared with 24 a year ago.

MONITOR A PRISONER.

Arkansas May Have to Stay in Missouri a Year.

St. Louis, May 9.—River men predict that the monitor Arkansas, which is stopped by shoal water at St. Genevieve, Mo., is a prisoner until next March. Dredges may scoop out a channel through which the boat can pass south, but experienced river men are of the opinion that the dredges will not be able to dig a channel quickly enough to cope with the constantly falling river.

If there shall be no June rise, it is believed the war ship will have to lie at her present anchorage until next year and wait for the winter flood stage to release her.

Odell Signs Garnishee Bill.

Albany, N. Y., May 9.—Governor Odell has signed Mr. Monroe's so called garnishee bill, permitting the attachment of salary or income over \$20 a week for debts for necessities of life.

Buffalo Tailors Strike On.

Buffalo, May 9.—The strike of journeymen tailors for an increase of wages, which has been in progress in this city for nine months, has been declared off unconditionally.

RUSSELL HOLT IS NOW A WELL MAN

QUINONA BUILT UP HIS STRENGTH AFTER TYPHOID FEVER.

The case of Russell Holt, 7 South St., Boston, Mass., is one of the many positive proofs of the wonderful benefit to be derived from QUINONA when he says:

"Upon recovering recently from typhoid fever I found myself in a very weak condition. I easily became tired and found I was unable to do half the work I formerly did at the office. I would come home evenings completely tired out, with little desire to eat or spend the evening in amusement. I simply wanted to lie down and rest. Mornings I would still have that same dragged-out feeling."

"It was QUINONA which changed all this. I would take a spoonful of it three times a day and it was not long before I felt my strength returning. My work at the office no longer tired me. I am now free from those awful headaches I once had. I very seldom take cold, I wake up in the morning with clear head and feeling perfectly rested after a good night's sleep, and am now a well, strong man."

"I owe all this to QUINONA and always recommend it to my friends who complain of being in the same tired-out condition I was in, for I know it will do them a world of good." Russell Holt, 7 South St., Boston, Mass.

What QUINONA did for Mr. Holt it will do for you if you are suffering from lack of strength, nervousness, sleeplessness, constant colds, night sweats, severe headaches, bad stomach, no appetite or that dragged-out feeling.

QUINONA is the prescription that doctors have been prescribing for the last eight years, and they have never reported a single case where it failed to cure. QUINONA will make you look better and feel better than ever before. All druggists sell QUINONA. Send for our pamphlets containing doctors' and people's testimonials. THE QUINONA CO., 1 Hartford St., Boston, Mass.

COKE DANDRUFF CURE

KILLED IN STREET RIOT.

Italian Who Wouldn't Quit Work Shoots a Fellow Countryman.

Greenwich, Conn., May 9.—During a strike riot here a striking Italian laborer was shot to death by one of his fellow countrymen, who was attacked by a number of strikers in an effort to induce him to quit work.

The men were employed by Contractor Christiano in making excavations on the site of the residence of Gustav Baumann. During the morning a party of twenty Italians came to the park and induced all except one of Christiano's men to strike. Angered by the refusal of this man to join them, the strikers set upon him, using clubs and stones as weapons. The man was driven slowly backward until he reached a pile of lumber. There he made a stand and drew a revolver. The sight of the weapon had no effect upon the strikers, however, and when they continued to advance the man fired into the crowd.

One of the strikers was hit in the stomach and died shortly afterward. As soon as the shot was fired the strikers scattered. Constable Ritchie, with several deputies, was soon brought to the scene and arrested the man who did the shooting.

A search was immediately commenced for the strikers, and six have been arrested and placed in the Greenwich lockup.

NO TRAINS IN VICTORIA.

Curious Dispute Ties Up Australian Railroads.

Melbourne, Victoria, May 9.—All the state owned railroads of Victoria have been tied up in consequence of a curious dispute between the government and the railroad employees regarding the right of the latter to affiliate themselves with the Victoria Trades hall, the headquarters of trade unionism in this colony.

The employees of the railroads are practically civil servants, and the government claims that in case of a strike in other trades affiliated with the Trades hall the railroad men would be obliged to strike in sympathy, and therefore the government notified the railroad men that unless they withdrew from the Trades hall before May 12 they would be dismissed.

The men struck at once. About 11,000 are involved.

LEBAUDY'S AIR SHIP.

Makes a Successful Trip From Paris to Mantes and Return.

Paris, May 9.—The air ship constructed for the Lebaudy brothers made a highly successful trip under Pilot Juchmes and Engineer Rey. The start was made at 9 a. m. from St. Martin during a light rain and with a brisk wind blowing. The dirigible air ship passed over a number of suburban towns.

At Mantes the air ship made a circle around the cathedral spire and left that town going diagonally against the direction the wind was coming from. Over Limay, Mantes and Rosny the air ship was put through a series of evolutions and answered her helm and maneuvered to the perfect satisfaction of all interested in her. She then returned to her point of departure.

NEWCHANG OCCUPIED

Russia Makes a Warlike Move In North China.

CONSTRUCTING NEW FORTS

and Garrisoning Old Ones—Fourteen Thousand Troops Between the Mouth of the Liao River and Port Arthur.

Peking, May 9.—The Russians, it is announced, have reoccupied Newchwang with a large force and have also put garrisons in the forts at the mouth of the Liao river.

The news of Russian activity, which comes from a most trustworthy source at Newchwang, adds that on their return to Newchwang the Russian troops fought with them several large guns. A large force has been ordered to reoccupy Tienchwang. The Russians are 14,000 troops between the mouth of the Liao river and Port Arthur. The Russians are reported to be constructing forts on the hills near Liaoning, commanding the road between here and the Yalu river, and they have arranged to have a large quantity of provisions delivered at Newchwang. A dispatch from an official at Newchwang says indications point strongly to these active preparations being intended to guard against operations against the Russians in Manchuria.

MR. HAY ALARMED.

United States May Join Anti-Russian Coalition.

Washington, May 9.—The state department has received official confirmation from its agents in China of the increase of the Russian garrison in Newchwang, Manchuria, and there is reason to believe that it is preparing to take vigorous steps in the matter. Secretary Hay is in communication with President Roosevelt in California, and upon the latter's decision the secretary's course will depend. It is stated that the department has had its attention taxed by the course of events in Manchuria and that it now contemplates a more radical step than any which has heretofore marked the negotiations between the powers on this subject.

The proposed step contemplates joint action by Japan, England and the United States. Preceding negotiations have been hampered by the inability of the United States to act jointly with other nations without violating its traditions, but it is now hinted that some plan of co-operation with England and Japan may be devised which will have the effect of convincing the Russian government of the united determination of the three nations to insist upon Russia's evacuation of Manchuria while not actually committing the United States to a formal alliance.

This programme is subject to the approval of the president. If it is not looked upon with favor by him, the state department may fall back upon its former method of individual representation to Russia and ask another explanation of the happenings in Manchuria.

ACTIVITY IN JAPAN.

Mikado's Arsenals Working Night and Day.

Victoria, B. C., May 9.—The steamer Tosa Maru brings news from Tokyo that unusual activity is prevailing in Japan as a result of the feeling against Russia in regard to the Manchurian entente.

The Japanese Advertiser says the arsenals of Japan are now working day and night with increased staffs, and vast amounts of naval and military stores are being turned out. The Yokohama papers say Japan is preparing for a decisive step.

The Japan Times, reviewing the reports from north China, says that, far from taking steps to evacuate, it is plainly shown that Russia is engaged in active warlike preparations. Large stocks of coal and provisions are being stored, and there is great military activity in Manchuria and the gulf of Pechili. The Tokyo paper says things look decidedly ugly in China.

Peking correspondents state that no reports are being received at Peking of affairs in Manchuria since Russia secured control of communications. From Port Arthur it is reported that no Japanese are now allowed to travel in Manchuria.

Never Entirely Evacuated.

London, May 9.—The announcement from Peking that the Russians have "reoccupied" Newchwang must not be understood as implying that they ever fully evacuated the place. The news is taken here to mean that the town has been reoccupied by the force, the withdrawal of which was announced in April, when the Russians said that all the troops except the men necessary for the police guard had been removed.

Russian Soldiers In Korea.

Yokohama, May 9.—There are persistent reports in circulation regarding the movements of Russian troops along the Yalu river. Detachments have entered Korea ostensibly to protect the Russian timber concessionaires, and a large body of Russian troops are reported to be approaching Wiju, Korea. The Japanese government is protesting against these actions.

Meyer Entertains Royal Duke.

Rome, May 9.—Ambassador and Mrs. Meyer have given a banquet in honor of the Duke of Aosta, heir apparent to the throne, and his brother, the Count of Turin.

IT DOES

not require clothes to be rubbed and scrubbed excessively. It does not tear and wear the clothes, or roughen and redden the hands. It is Soap Perfection. No boiling, no toiling with

Sunlight

Yet the Price is No More—Only Five Cents.

OUR YACHTS OUT.

Reliance Loses Columbia in a Light Wind.

Glen Cove, N. Y., May 9.—Both of the cup yachts, the Reliance and Columbia, left their moorings early, the Reliance from New Rochelle and the Columbia from Glen Cove. The Reliance got a gentle wind from the southeast and slowly started off to the sound and then hove off to the eastward, evidently bound for Bristol to get a new suit of sails and to be refitted. Her tender, the Sunbeam, went off ahead of her. The Columbia lay becalmed for more than half an hour at Glen Cove and was then towed off into the sound by her tender, the Park City, to get in company with the Reliance.

The Columbia's tender left when she was a mile astern of the new boat. Both were nearly becalmed.

The Reliance soon afterward got a light air from the southeast and went off to the eastward at about a seven knot clip. The breeze was steady with the Reliance but for three-quarters of an hour, during which the Columbia had sailed about five miles. Captain Miller of the older boat changed the size of his jib topsail four different times in a vain effort to catch the feeble breeze. Meantime the Reliance drew steadily away from the Columbia and at noon had increased her lead by about two miles and was then nearly three miles ahead of the Columbia, sailing in a very much better breeze than the older boat could find. Captain Miller of the Columbia then gave up the chase, put about and ran back toward Glen Cove. The Reliance kept on to the eastward.

Shamrock III. Takes a Spin.

Gourock, Scotland, May 9.—Captain Wringe, anxious to give the challenger's sails a stretching before the set race, went out with her alone. The yacht made a couple of trips from Gourock to Holy Loch and return and negotiated a slight sea well in a fresh breeze, standing up excellently under her canvas. The new spars stood the strain admirably and showed no sign of weakness. The new boom is stronger and stiffer than the old one, but it is not heavier, as aluminum fittings were used instead of the steel fittings employed on the old boom.

EX-KING OF UGANDA DEAD.

Old Enemy of England Ends His Life in Exile.

Port Victoria, Seychelles Islands, May 9.—Mwanga, the former king of Uganda, is dead. His death was caused by the rupture of an aneurism. King Mwanga, a son of the celebrated King Mutesa, left Uganda secretly on July 6, 1897, to organize a rising at Buddu against the government of the British protectorate, but the king's forces were defeated July 20 of the same year by the troops commanded by the British deputy commissioner, Major Ternan, and Mwanga escaped to German territory and surrendered to the Germans, who eventually turned him over to the British.

The king was then exiled to the Seychelles Islands. Mwanga's infant son, Daudi Chwa, was afterward proclaimed king (or kabaka) of Uganda, with a native council of regency.

Lived on Pea Soup Twelve Days.

San Juan, Porto Rico, May 9.—The American schooner James Slater, Captain John Peterson, of Port Jefferson, N. Y., thirty-four days out from Savannah-Mar, with logwood for New York, has put in here, having been driven back from off Cape Hatteras April 2. The crew had been subsisting on pea soup alone for twelve days and were very weak. The steward, William Holcomb of Charleston, S. C., was in a comatose condition. The men had been working at the pumps at regular intervals for a month, as the vessel was making eight inches of water per hour when the pumps were not going. Her topsails and headsails were carried away, and she was trying to make St. Thomas in order to dock there.

Two Men Cause Big Strike.

Barton, O., May 9.—Five hundred men employed at two mines of the Youghiogheny and Ohio Coal company have struck because two of their number were discharged. Officials of the miners and owners of the mines have been called to the scene.

COTTON JUMPS.

May Option Reaches Highest Price in Ten Years.

New York, May 9.—Cotton has passed the eleven cent mark long expected by the confident bull operators in the local exchange. Whatever doubt may have existed in the minds of the shorts regarding a corner in the May option was settled when the price of that delivery soared fifteen points to 11.01, the highest figures in ten years, on their attempts to cover.

The July option, acting in sympathy, scored an advance of four points, reaching the highest record in three years for that month at 10.20, and the entire list scored gains of four to fifteen points.

The exchange was in an uproar, orders to buy and sell being shouted from all parts of the room. The pit was crowded to suffocation, and the floor was filled with excited traders who were trying to protect their interests.

OMAHA'S STRIKE.

Business Men Urged by Governor to Try to Reach Agreement.

Omaha, Neb., May 9.—A conference between Governor Mickey, Adjutant General Culver and about 400 business men has been held here to discuss strike matters. The governor made an address, in which he urged the business men to meet the strikers and attempt to reach an agreement.

Adjutant General Culver spoke along the same lines and said that in his judgment matters had not assumed a condition where the calling out of the state militia was necessary. His remarks were cheered loudly.

Several of the labor leaders were present, but they did not take part in the meeting.

"Uncle John" Yancy Dead.

Port Yellowstone, Mont., May 9.—"Uncle John" Yancy, one of the most famous characters in the west, is dead at his home in Pleasant Valley, Yellowstone park, where he had lived for thirty years. Yancy kept a small hotel and had entertained many prominent guests, among them President Roosevelt, Baron Rothschild, President Arthur, Senator Vest and General Sherman.

Postmaster General Laughs.

Washington, May 9.—Postmaster General Payne has received the reply of S. W. Tulloch to his request for any information in substantiation of Mr. Tulloch's charges against the administration of the post office department. Mr. Payne refused to discuss the letter. "Say that the postmaster general was asked about it and that he just laughed," he remarked.

Paris-Madrid Automobile Race.

Paris, May 9.—W. K. Vanderbilt, Jr., has entered for the Paris-Madrid automobile race, which will be started May 23 and end May 27. King Alfonso, a member of the Spanish royal family and the minister of public works will give prizes for the contest, and the king will entertain the participants at a garden party.
